---

Robin Butler called the August 24, 2004 meeting to order at 8:30 a.m. Minutes from July 27, 2004 meeting were approved as submitted.

### **OLD BUSINESS:**

Robin Butler needs stats for each month to assist with development of the end of year report. This assists all agencies with their accreditation reports. Please bring your stats to each CTST meeting.

CTST Aggressive Corridor Operation- Andre Shoucair is working on the details and will report next month.

### **PROBLEMS AND SOLUTIONS:**

2004-12 Bedford Rd/Crossbow: This problem is closed. Speed bumps cannot be put in.

2004-13 Oxford Rd/East Dr.: Terry Owens will review for 2-4 weeks. No right turn between 2:45-3:45 was suggested.

SR434/Orange: Left turn from Southbound on Orange. An extended left turn lane was suggested. Larry Wynn stated that this needs protected only phase in the signal.

SR46/CR15: Side street is split phased. Turning guidelines were already put in. Larry stated that the operation was Snappy!

HE Thomas/Beltway between Airport (46A): There are 3 signals that are not timed correctly.

Markham Woods Rd/ Heathrow Elem.: Request to have a signal which would be flashing when children are walking to and from school and then the signal would go to normal operation. (Like the signal @ 4<sup>th</sup> Street/Lake Mary Boulevard.)

Hunt Club/Sandlake Northbound: There is no turn on red sign that has been put up. Reason? Traffic Engineering is looking into this.

Florida Ave: when this roadway was repaved they put a double yellow line in. Suggested to have a passing zone put in if possible.
